## GOSPEL HALL.

464 Bloomfield avenue. Gospel meetings Tuesday, Saturday, Sunday at 7.45 P. M. Sunday-school at 8 o'clock P. M. You will be welcome.

**Deafness Cannot be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 735. Take Hall's Family Pills for constipation.—Adv.

## HOW WEAK WOMEN

## May Be Made Strong at Small Expense and No Risk

There are hundreds of women in this vicinity, weak, thin, run-down, tired out and nervous. Such women need Vinol just as much as did Mrs. Jane Pepper, of 2307 Howard street, San Francisco, Cal., who says: "I have used Vinol for some time with particularly gratifying results. I was run down, weak and debilitated, and my appetite was gone. After taking several bottles of Vinol I found my condition greatly improved, and do not hesitate to recommend Vinol to anyone similarly affected."

Vinol is not a secret nostrum, but a delicious cod liver and iron tonic without oil, which will create an appetite, tone up the digestive organs, make pure blood and create strength. Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

J. HERBERT WOOD,

Druggist,

20 BROAD ST., Bloomfield, N. J.

## NEWARK THEATRES

## PROCTOR'S THEATRE.

Few announcements of local theatrical events have caused more discussion among discriminate playgoers than the engagement of Miss Annie Russell, one of the most prominent actresses on the American stage, in Jerome K. Jerome's comedy, "Miss Hobbs," at Proctor's Park Place Theatre, Newark. Through his efforts to secure the leading exponents of dramatic art in presenting several of the latter-day successes during the summer season, F. F. Proctor has secured Miss Russell's services as a special concession. She has lived in practical retirement for the past few years and only emerged temporarily two seasons ago to become a member of the company of stars at the New, now the Century, Theatre, New York. She will be seen at the local theatre during the week of May 27, when she will have the support of Oswald Yorke and the Proctor players.

## MINER'S THEATRE.

Manager Charles E. Taylor, who brings the famous "Darlings of Paris" Burlesque Company to Miner's (Newark) Theatre next week, promises to give the patrons of burlesque one of the greatest surprises that the burlesque-loving public has ever had. It is in the form of a Salome toe dancer, Kulu is the little lady who bears the distinction of being the only Salome dancer that has ever attempted this difficult dance on the toes. Kulu, as the name implies, is a little French girl, but one who has spent two years in Egypt. Kulu has only been in this country one season, this being her second, and was imported for this company by the owner, who always has been on the alert to secure for his patrons some Oriental novelty, and those who have seen the performance claim that Kulu is one of the greatest Oriental dancers that have ever been seen on this part of the hemisphere. With the engagement of the "Darlings of Paris" Company Miner's Theatre will close its doors for the summer, after an extremely successful and profitable season. The house will reopen early in August with the best of the Empire Circuit attractions.

## NEWARK THEATRE.

To see Lyman H. Howe's Travel Festival is more like an actual experience than merely "seeing a show." It can be depended on for all the thrills and joys of real travel, yet without any of the discomforts of late trains, sea-sickness, poor hotels, etc. Those who "travel with Lyman H. Howe" at the Newark Theatre next week may see more in a brief two hours than the most rapid traveller could possibly see in many months. The "travellers" will be taken to the glories of Canada in midwinter, including the ice palace and carnival pageant in Montreal, spirited winter sports such as tobogganing, exciting snow-shoe and skating races, etc., then through the indescribable grandeur of the snow-bound Rockies and into the depths of the great Canadian forests. Here the life of the lumber camp, felling and transporting the great trees to tide-water are shown in fine detail.

## Olympic Park.

The management of Olympic Park are to be congratulated on the unremitting care with which they keep their park select and maintain it as a whole, some recreation centre for the family. Here a man may bring his wife and grown-up children secure in the knowledge that nothing offensive to eye or ear will be tolerated. The attractions of Olympic Park this season are greater than ever. Among the extra features for Decoration Day are both running and trotting events on the half-mile race track, baseball and other athletic sports. The nominal charge to the park includes open-air vaudeville and concert every afternoon and evening, while opera tickets purchased at the gate or at the downtown office will admit to the park free. It is doubtful whether any similar enterprise has ever been attempted on such an ambitious scale as that on which the Olympic Park opera will be run this season.

## Where Are the Chess Men?

One of our subscribers complains that the only thing he can see which is radically wrong with our town is "that there are no chess players in the place." Will some of our readers correct this impression by giving us the names and addresses of any players of that game they know of, so that we can refute the slander, and show him that our town is right on all points?

## A Great Problem.

The consideration of the bill to provide for the administration of the Panama Canal, which was begun in the House of Representatives last week, opens a new chapter in the history of an undertaking in which the United States has succeeded where all others have failed. For many generations it has been the dream of far-seeing men to open a new pathway between the two oceans by cutting the strip of land which connects the continents of North and South America and shortening, by weeks the time ships must consume to go from the Atlantic to the Pacific. Tragic failure resulted from the efforts of the French government to build the Panama Canal. Few lessons could be learned by our engineers and statesmen from studying French methods. Unknown difficulties had to be met and new plans devised for meeting them. It was done successfully, and the fact that the opening of the canal is assured is a tribute to the genius of America. The legislation now being considered must be enacted practically without precedent. Great problems must be solved, with little but reason and instinct to guide. Intricate and delicate matters of diplomacy, as well as grave methods of administration, must be decided. Congress has entered a new field in determining what it shall decide for the regulation of the Panama Canal. The answer it will make is to mark a new epoch in United States history and the history of the world. Men of all nations, as well as citizens of this country, are listening to hear what determination is reached. The regulation of the Panama Canal is one of the most important pieces of legislation ever presented to the American Congress.

## To Oil Roads.

There was a lively competition Monday night for the contract for supplying oil for the oiling of roads in this town. Several firms submitted bids, and the council has a wide variety of prices and qualities to choose from. The bids were referred to the road committee for investigation and report and Mr. Hummel moved that the council adjourn to Friday evening, the 24th inst., in order to award the contract so that the oil could be spread before the centennial celebration takes place.

Mayor Hauser requested that the road committee have all streets to be oiled swept clean before any oil is applied, and in order to do so he advised the purchase of a street sweeping machine.

## Montclair Academy Notes.

The second annual open house was held at the Montclair Academy on Friday afternoon and evening of last week. The first commandant of this academy, Major E. H. Baker, reviewed the lower school squad in the afternoon, and the manual arts, drawing and Kodak Klub exhibitions were open to public inspection until 6 o'clock.

In the evening Mr. Charles H. Garrison presided at the Lucia Pratt Ames prize intercity debate. The Forum and the Rostrum both put forth strong teams and the decision was very close. The judges, Professor John C. Stone, Mr. M. M. LeBruna and Mr. F. C. Bugbee, brought in a decision favorable to the negative team, consisting of Warner W. Kent of Montclair, Neal Staunton of California and Lewis Douglass of Arizona, of the Forum Society. The Rostrum team was composed of Kenneth B. Hay of Pennsylvania, Alfred Mathiasen of Keyport, N. J., and Harold J. Seymour of Lima, Ohio. Lawrence G. Payson was alternate for the Rostrum and Robert T. Williams for the Forum. The school mandolin club and orchestra furnished the music.

The baseball schedule is progressing favorably. To date, the academy has lost one game, cancelled one on account of rain, and won four.

Coming games are: May 9—East Orange High School vs. M. A. at East Orange; June 1, Bordentown Institute vs. M. A. at Bordentown. The academy was victorious in a tennis match played with the Collegiate School Saturday morning by 4-0. The next tennis matches will be with East Orange High School in Montclair at 10 A. M. May 25, and with Montclair High School at 3 P. M. May 31.

Field day exercises will take place May 27, 28 and 30.

There will be a stereopticon exhibition by the Edison Company at the school Friday evening, May 31.

On May 26 Mr. Edgar MacNaughten will address the students at the Walden House.

## State Archaeological Survey.

The last Legislature made provision for the beginning of an archaeological survey of New Jersey and placed the work under the direction of the State geologist. A modest appropriation was made available at once for work during the coming summer and a somewhat larger appropriation was inserted in the regular bill to permit continuing the work for another year. If the results of the first two years' work meet with public approval there is little doubt but what the survey will be continued. It is proposed to investigate Indian village sites, burying grounds and quarries to which the aborigines resorted for material for their arrowheads, etc. Ultimately it is hoped that it will be possible to publish a map showing the location of many of these ancient sites. Any persons having knowledge of their location will assist much in the initiation of this work by communicating with Dr. Henry B. Kistner, the State geologist, Trenton, N. J. The small sum available this year will not permit an extended survey and it is hoped by the information obtained from volunteers that much unnecessary travelling may be avoided.

For immediate relief from corns, bunions or other foot troubles go to Dr. C. J. Neff, Surgeon Chiroprapist, room No. 3, Trust Company building. —Adv.

## THE CONNECTING LINK

between office and home is the telephone. With a telephone in his home the business man in his office can keep in touch with his household—a friend for dinner, time of arrival, any unusual delay—these and countless other messages can be sent by telephone—thus simplifying household arrangements. Every home in Bloomfield should have a telephone.

Just another convenience  
Telegrams by Telephone.

Montclair, N. J.

## Mountainside Nurses Graduate.

The commencement exercises of the Training School for Nurses of the Mountainside Hospital were held at Unity Church, Montclair, on Tuesday evening of this week.

The church was prettily decorated with flowers and well filled with the friends of the graduates, and those interested in the hospital, the officers of the institution, the alumnae and the members of the Training School being seated in the body of the church.

After prayer by Rev. George L. Curtis, D. D., of this town, the chairman, Mr. Robert M. Boyd, Jr., made some opening remarks, and the address to the graduates was given by Rev. Nassau Stephens, whose subject was the nobility of the nurses' profession and her responsibilities.

Dr. Francis, the president of the staff, gave some practical advice to the graduates, and then each one was called to the platform to receive her diploma from Dr. Francis and her pin from Miss Jarvie, acting president of the board during the absence of the president, Mrs. Hooper.

Between the addresses there was some very delightful music by a trio of ladies, Mrs. Van Vleet, Mrs. Manning and Mrs. Vannil, with a violin accompaniment by Mr. Christie and Miss Hawes at the piano, and Mrs. Manning sang three solos very charmingly. The six graduates were Miss Alice Madeline Castillo and Miss Chloe Cornelia Bailey of New York, Miss Frances Feeney of Montclair, Miss Hannah Montgomery of Paterson, Miss May Jamieson of Canada and Miss Florence Kert of Rahway.

After the close of the exercises in the church there was a reception and dance for the nurses at the Evans Home.

## Timing Telephone Calls.

A new method of timing telephone toll connections is described in the New York Telephone Review. It is a very simple affair and is in appearance somewhat like a cyclometer used on a bicycle. One of these devices is installed on the keyboard between each two operators. It is actuated by an electrically driven master clock and is moved ahead one count every three seconds, or 100 times in five minutes. Five minutes is the length of time which under State subscribers may talk on toll calls for the payment of one charge. The company is entitled to an additional charge for each five minutes or fraction which subscribers talk in excess of the first five minutes. In handling toll calls the operator notes on a ticket, the reading of the device when the called subscriber answers and again when he is through talking and hangs up. If there is a difference of less than 100 between the reading taken at the start of the connection and the reading taken at the finish one charge only is involved; if this difference is more than 100 and less than 200 two charges are involved, although in reality if the difference is less than 110 the subscriber is billed for only one message, as the company allows a leeway of thirty seconds on all toll calls.

It is a matter of very simple subtraction for the auditor to determine whether a subscriber should be billed for more than one message on any toll call.

## Escapes An Awful Fate.

A thousand tongues could not express the gratitude of Mrs. J. E. Cox of Joliet, Ill., for her wonderful deliverance from an awful fate. "Typhoid pneumonia had left me with a dreadful cough," she writes. "Sometimes I had such awful coughing spells I thought I would die. I could get no help from doctor's treatment or other medicines till I used Dr. King's New Discovery. But I owe my life to this wonderful remedy, for I scarcely cough at all now." Quick and safe, it's the most reliable of all throat and lung medicines. Every bottle guaranteed, 50c and \$1.00. Trial bottle free at all druggists.—Adv.

Garlock & Mitchell have put in a new brand of cigars called "Our Standard Perfectos." It is the best five-cent cigar sold in this town. Box of 50 cigars. 25.—Adv.

## THE HOME OF PRESCRIPTION ACCURACY

## Cederust

the new ideal moth preparation is the one article that should claim your attention at this time.

With the advent of true spring weather and the necessary packing and storing of winter ware, it behoves every housewife to look about for moth preventatives.

In CEDERUST you have something new, something that is reasonably cheap, is efficient, pleasant in odor and goes further than any other article on the market. It truthfully does the work of three to five pounds of moth balls, two pounds of naphthalene or one pound of camphor.

It does NOT stain or injure the most delicate fabric and is readily removed by brushing.

TRY IT AND BE CONVINCED!
